VETERAN-OWNED

FLORIDA-BASED · SERVING FL · AL · GA

COMPANY OVERVIEW

Triarc Electrical Services LLC is a **Florida-based, veteran-owned** provider of independent, **third-party electrical testing** for government and commercial customers. We deliver acceptance, commissioning, and maintenance testing following NETA ATS and MTS, NFPA, and IEEE standards – with disciplined planning and clear documentation, so the power systems your mission depends on are verified, documented, and ready.

CORE COMPETENCIES

ACCEPTANCE & COMMISSIONING TESTING

New or modified equipment verified before energization and turnover – NETA ATS, NFPA, IEEE.

RELAY & PROTECTION TESTING

Functional testing and calibration of protective relays and associated schemes.

POWER QUALITY ANALYSIS

Monitoring and analysis of harmonics, sags, swells, and transients.

ARC FLASH STUDIES

Studies that help facilities understand electrical hazards and support a safer workplace.

MAINTENANCE TESTING

Scheduled testing of switchgear, transformers, breakers, and cables – NETA MTS, NFPA, IEEE.

INFRARED THERMOGRAPHY

Non-contact thermal surveys of energized equipment to find developing hot spots.

GROUNDING & INSULATION TESTING

Ground-resistance and insulation-resistance diagnostic testing.

EMERGENCY CALL-OUTS & OUTAGE WORK

Emergency call-outs, weekend emergencies, and industrial shutdown / outage testing.

DIFFERENTIATORS

- ★ **Veteran owned** – military discipline applied to electrical reliability: plan the work, follow the procedure, document the result.
- ★ **Independent & objective** – as a third-party tester, our only interest is accurate results.
- ★ **Pursuing NETA accreditation** – NETA-track technicians holding OSHA 30 and NFPA certifications.
- ★ **Southeast coverage** – serving Florida, Alabama, and Georgia, with weekend emergency and industrial shutdown / outage availability.
